

WHAT OTHER MOMS HAVE TO SAY

“This is a nice service. The nurse’s medical knowledge of development in newborns and breastfeeding was most helpful.”

“It is useful knowing there are people out there if I have any questions, and they come to my house.”

NEW BABY HOME VISIT

*Our Registered Nurse’s
are here for you.*

CONGRATULATIONS ON YOUR NEW BABY!

As a Resident of Kandiyohi County, you are eligible for an in-home nurse visit at no cost to you. You may have many questions after you leave the Hospital.

Whether this is your first baby or your fifth, it is nice to have someone to talk with.

You are your baby's first teacher, & we are here to help!

WHAT HAPPENS DURING A VISIT

A Public Health Nurse will support you with:

- Breastfeeding
- Adjusting to daily life with a newborn
- Infant growth & development
- Newborn attachment & bonding
- Comforting your baby
- Checking your baby's weight

A Public Health Nurse can connect you with additional Community Resources
